JAVA BACKEND DEVELOPER

Java Backend Developer with 3+ years of experience in designing, developing, and maintaining enterprise applications using Java 8, Spring Boot, REST APIs, Hibernate, and PostgreSQL. Skilled in building secure, scalable backend solutions, optimizing SQL queries, and working in Agile environments. Passionate about delivering high-quality software through clean coding practices, CI/CD, and continuous learning.

KEY COMPETENCIES

Java 8, OOP	Hibernate and Spring Data JPA	Multithreading, Concurrency
Spring Boot, Spring Framework	Spring Security, JWT Authentication	CI/CD (Git, Jenkins)
RESTful API Development	SQL and PostgreSQL	Agile/Scrum Methodology

PROFESSIONAL EXPERIENCE

Freelance Java Backend Developer | Remote

Jan 2026 - Present

Client Management & REST API Engine (Java & Spring Boot)

- Engineered REST API architecture using Java 8 and Spring Boot to handle customer onboarding, profile management, and data tracking.
- Integrated JWT-based authentication to secure application authentication and authorization. Stateless communication across backend endpoints.
- Utilized Postman for API testing and behavioral verification to ensure reliable, bug-free production deployment.

Database Modernization & Query Optimization (PostgreSQL)

- Redesigned a legacy PostgreSQL database schema, normalizing tables and writing SQL scripts to safely migrate historical transaction records.
- Optimized slow-running queries by **40%** through strategic indexing and rewriting inefficient nested queries into structured joins.
- Analyzed execution plans and resolved query bottlenecks affecting application response times.

Tata Consultancy Services

Jan 2023 - Aug 2025

Java Backend Developer - Sentinel Project

- Developed and maintained scalable backend services using Java 8 and Spring Boot for enterprise applications. Designed and implemented **30+ RESTful APIs**, contributed to modernization of legacy Spring MVC modules, improved business logic and database queries, reducing API response time by **35%**. Worked in **Agile product development teams** with a focus on secure coding, high-performance backend systems, and production support.
- Implemented **Spring Security with JWT authentication**, role-based authorization and secure **REST API** practices aligned with enterprise security standards.
- Optimized concurrent request processing using **ExecutorService**, **synchronized blocks**, and **concurrent collections** to efficiently process high-volume business transactions while maintaining thread safety.
- Participated in **Agile Scrum** ceremonies including Sprint Planning, **Daily Stand-ups**, **Sprint Reviews** and **Retrospectives** while collaborating with cross-functional teams.

TCS Interactive | Frontend Support Coordinator

- Assisted in developing and maintaining UI components using Angular 15, TypeScript, HTML, and CSS. Supported backend integration by consuming REST APIs and performing minor UI fixes. ☐
- Resolved simple UI bugs and collaborated with senior developers during feature implementation. Participated in Agile meetings and contributed to sprint tasks.

PROJECTS

Angular-Spring Boot Todo Application

- Built a full-stack application using **Angular, Spring Boot, and PostgreSQL** with **JWT-based authentication** and role-based authorization, implementing CRUD APIs, pagination, validation, and error handling.
- **AI Workflow Automation** – N8N/ Make.com & **Power BI Dashboard** - [PowerBIDashboard](#)

SKILLS

- **Backend:** Java 8, Spring Boot, REST APIs, Spring Security, Spring Data JPA, Hibernate, JWT, Concurrency, ExecutorService, Design Patterns, Exception Handling, Logging, Maven, Microservices, Enterprise Application Development.
- **ORM & DB:** PostgreSQL, SQL, PL/SQL, Stored Procedures, Joins, Indexing, Query Optimization.
- **DevOps & Tools:** Git, GitHub, Jenkins, CI/CD, Docker, SonarQube, Postman.
- **Methodology:** Agile/Scrum, SDLC, Code Reviews.
- **Security:** Spring Security, JWT, Spring-Security, Role-Based Authorization.
- **Frontend** (basic knowledge): Angular 15, TypeScript, HTML, CSS3.
- **Testing:** JUnit, Mockito, Unit Testing, Sonar-Qube, pgFoine(db metrics).

EDUCATION & CERTIFICATIONS

B.Tech in Civil Engineering

Bajaj Institute of Technology, Wardha.

Language Competencies

Marathi, Hindi, English

EXTRACURRICULAR ACTIVITIES

Vice-President, Business Club

B.Tech in Civil Engineering

Community Volunteer

Ambito Hackathon 2021
